PCDW (Project Control Data Warehouse) 1.02

License version 3.0

Note: Modified license to exclude use of PCDW in commercial products beginning with v1.00 (will license these cases separately).

Release Notes:

1. Cleanup of typographic and naming convention issues.
2. Created new dimensioning classes: Invoice, Daily Snapshot, Audit, Work Metric, Task Type and Craft Fee.
3. Created Planning category and reclassified estimate and estimate detail. Changed the attribute prefix names in these two entities to match the planning class format.
4. For the Equipment entity: Modified prefix format to match entity class.
5. For Error Code: Reclassified to 'Administration' and modified leading prefixes for the attributes.
6. Commercial: All Captions updated
7. Commercial: Updated 234 relationships (not generated with script)
8. Commercial: Updated 172 domains (not generated with script)
9. Commercial: Updated attribute 3716 definitions (generated with script – extended definitions)
10. Commercial: Added and populated 12 new work spaces.
